

eAgenda

TBT Committee

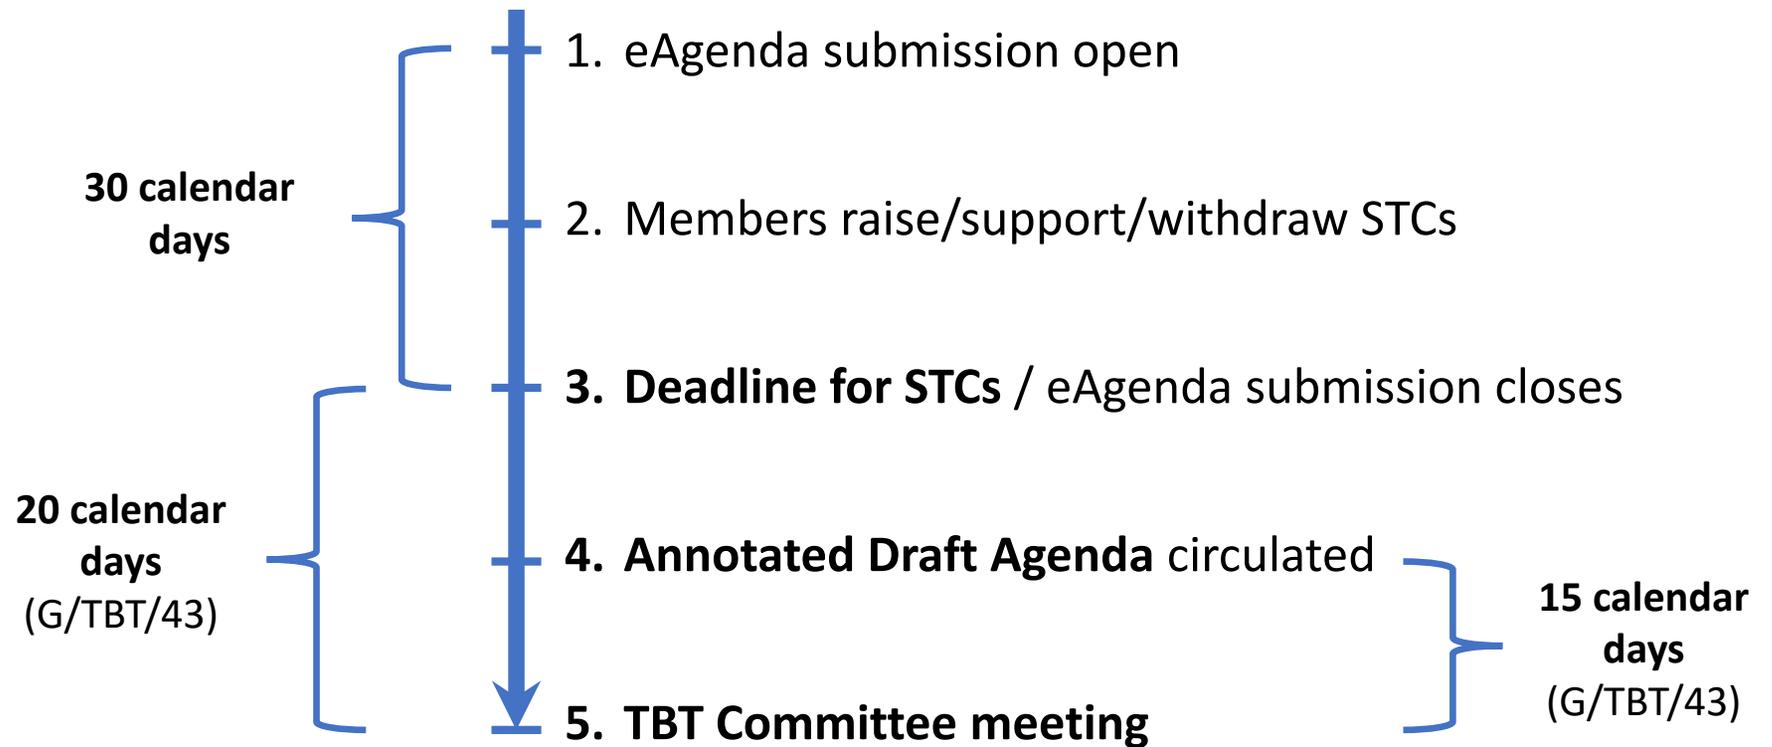

Why eAgenda?

- **Origins:**
 - mandate from Members (from 8th TR) to improve efficiency and effectiveness (on STCs)
- Simplify the submission of **specific trade concerns (STCs)**
 - SPS context: extended to **other agenda items**
- **Benefits:**
 - **faster** and easier
 - increases **transparency** and early notice on STCs
 - more time for **preparation**
 - easier sharing of **statements**

Core features

- **Member use only**, password/login
- Collaborative – in real time
- Dashboard (+timeline)
- Uploading and downloading statements
- Email alerts
- Search STCs
- Consult my STCs and agenda of last meeting
- Generation of AdA / Minutes (Secretariat)

eAgenda and STC timeline

- Collaborative Agenda
- Search Specific Trade Concern
- Agenda of Last Meeting
- My Specific Trade Concerns
- Download statements

Description of the measure (if not notified)

Status of Measure

Proposed Measure

Draft Statement (Check against delivery):

Regarding China's draft of the "Administrative Measures on Cosmetic Labeling" published on September 21, 2020, Japan appreciate China's consideration of our concerns on "Cosmetics Supervision and Administration Regulation". However, Japan would like to express the following concerns:

1. Article 5 provides that the content of the added Chinese labels, such as information regarding product safety and efficacy, shall be consistent with the original labels. However, the original labels are designed to comply with regulations in the country of production and it is natural that their contents do not always comply with China's regulations.
Therefore, Japan would like to request China that such requirement does not apply to labeling contents required by regulations in the country of production, and that the requirement will not be more trade restrictive than necessary to fulfil legitimate objectives.
2. Regarding Article 6, in order to avoid confusion for consumers, Japan would like to ask China that the label indicate a single responsible person ("cosmetics registrants or filers" or in the case of imported products, "responsible person in China"), and we consider that the label requirements regarding producers is not necessary.
3. With respect to the rules for labeling of all ingredients in cosmetics, there is an internationally recognized listing practice that ingredients with a compounding amount of 1% or less are allowed to list in no particular order. However, Article 12 provides that only ingredients with a compounding amount of 0.1% or less are allowed to list in no particular order. Japan would like to request to China that the rules for labeling should follow the internationally recognized practice so as not to be more trade restrictive than necessary.

Current status

- Piloted by nine Members at **November 2019** TBT Committee
- Currently have around **180 users** from 70 different Members
- 87% of all STCs raised with eAgenda in **February 2020**
- Used by all Members raising STC discussions in **October 2020**.
- At last meeting: **97% of all statements** were uploaded through eAgenda
- eAgenda now in use by SPS Committee (piloting phase over)
- Remains a **work in progress** – feedback is welcome!
